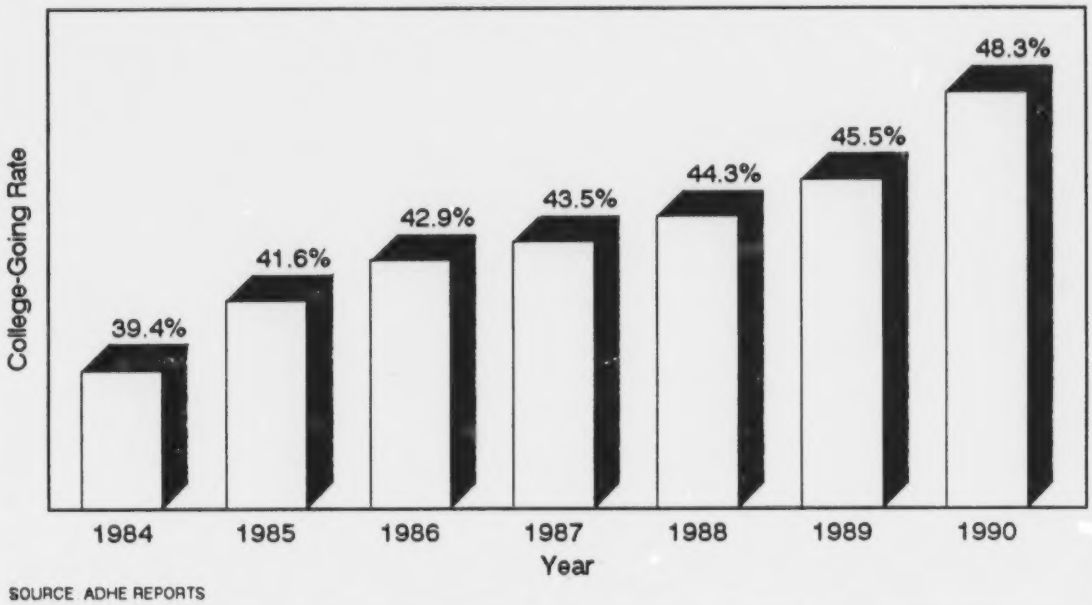
FIGURE 12.
COLLEGE-GOING RATE IN ARKANSAS
1984 THROUGH 1990



SOURCE ADHE REPORTS

According to the number of new college freshmen reported throughout this publication, the Arkansas college-going rate for 1990 was 48.3%, a significant increase from the fall 1989 rate of 45.5%. This rate is based on the comparison of 1990 high school graduates with the number of new freshmen who entered colleges and universities in Arkansas in Fall 1990.

This is the eighth consecutive yearly increase in the college-going rate and the highest in Arkansas history. This positive indicator of educational progress reflects changes in the state's education system since 1983, including growth in the number of Arkansas high school students who take college preparatory courses in high school. Widespread public discussion in recent years about the importance of higher education has also contributed to greater student interest in post-secondary educational opportunities.
